

Demagnetiser DM 100-H and -M

Hand-held unit (H) for mains operation or field installation (M)

Easy handling demagnetiser for material of steel and iron

For demagnetisation of:

soft iron

tool steel

alloy steel

screws

nails

tools

worked parts of steel

Technical data DM 100-H and DM 100-M	
Operating mode display	red control lamp
Control element	on-off switch
Operating principle	by removing the parts to be demagnetised from the constant alternating field of the DM100 (at most with 200 mm/s)
Field strength	300 A/cm (38 mT)
Frequency	50 Hz
Operative position	user-defined
Power supply	230 Volt / 50 Hz, 30 VA
Operating time	Relative power-on time 70 %, with power supply unit 100 %
Dimensions	180 mm x 130 mm x 130 mm
Weight	ca. 3,2 kg
